PREFACE

This volume of the Industrial Arts Index, the twenty-seventh annual cumulation, covers the period December, 1938, thru November, 1939. The indexing is not complete for a few periodicals which were delayed in arriving because of the war or other conditions. The indexing of these will be found in the current numbers of the Index. The list of periodicals included remains unchanged except for the loss of *Electric Journal*, which discontinued publication last March. In response to requests the *Comparative Law Series*, a monthly review published by the Division of Commercial Law, United States Bureau of Foreign and Domestic Commerce, will be indexed.

The book titles included in this volume number 2873. In addition to these are numerous pamphlets, government and college bulletins, and bibliographies.
